Phone: 954-321-4360

Course Description:

This is an armorer level course that will cover the design, operation, maintenance, and trouble shooting of the Beretta 92 and 96 series pistols. Upon completion, students will be able to detail strip, inspect, reassemble, and function test both the Beretta Model 92 and 96 series pistols.

Required equipment:

Tools and pistols will be provided in class. Students may bring personal or department firearms to work on if desired.

PREREQUISITE

Personnel should have some background in armorer functions and tasks. This course goes beyond the operator level of field stripping the pistol and requires an understanding of the functional theory of the firearm.

This is a one-day course open to law enforcement officers, military, and security personnel. Certification will be provided by Beretta U.S.A. upon successful completion of the course and is valid for a period of 3 years.
